Indeed's Clear Strategic Framework

Marketplace Monetization Strategy with Multiple Layers of Growth

Grow take rate of existing customers

- ▶ **Free to paid matches**
マッチングの有料化
- ▶ **Indeed Apply for Enterprise**
大企業によるIndeed Applyの活用
- ▶ **Value-based pricing for high salary jobs**
高給職等価値に応じたプライシング
- ▶ **Adoption of "closer to the hire" solutions**
より採用に近いソリューション

Grow new customers

- ▶ **Market expansion outside the US**
米国外のマーケットの拡大
- ▶ **SMB customers**
中小企業
- ▶ **Enterprise customers**
大企業クライアント

Grow Take Rate of Existing Customers

We can **grow our take rate considerably** and still have the advantage of offering a **significantly lower cost per hire**

テイクレートを飛躍的に向上させながらも、大幅に低い採用コストという利点を維持することが可能

Average Take Rate per Hire (%)

Indeed	<1% ¹
---------------	----------------------------

Industry Average Take Rates per Hire (%)

Staffing	~20% ²
-----------------	--------------------------

Placement	~20-25% ³
------------------	-----------------------------

Executive Recruitment	up to 40%
------------------------------	------------------

¹ Take rate calculated based on avg. spend on Indeed as % of average estimated salary for all jobs with a reported hire on Indeed in 2023.

² Equal to gross profit margin/(1 - gross profit margin) based on the weighted gross profit margin of the top 3 publicly traded global staffing companies in terms of revenue in 2021.

³ Staffing Industry Analysts: North America Staffing Company Survey 2021 Direct hire fees trend over time.

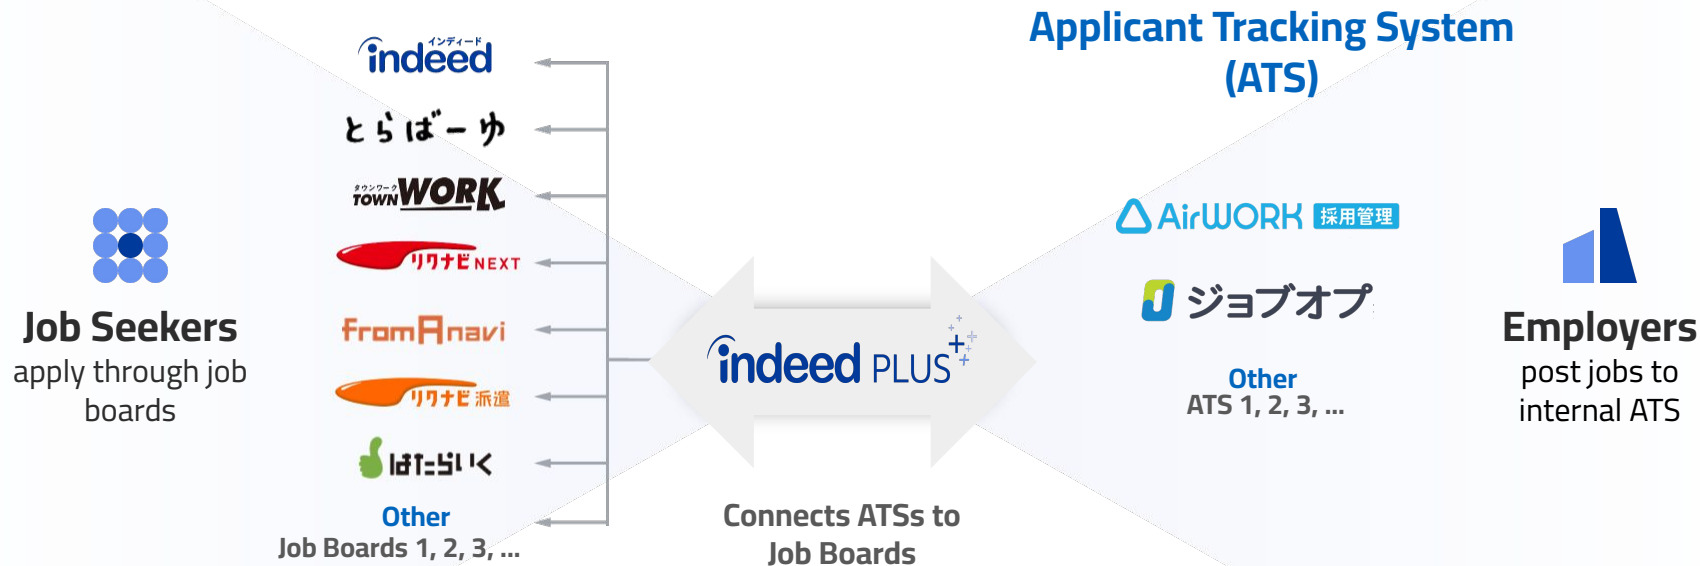

Applying HR Matching Engine

Leveraging all our HR Matching businesses to target entire HR Matching market

すべての人材マッチング事業を活用し、人材マッチング市場全体をターゲットに

Example: HR Technology and Matching & Solutions collaborate to Simplify Hiring in Japan

Indeed PLUS results in more applies and greater efficiency through better matching

Page 14, 16 and 17

- 1 The Company is aware there may be legal restrictions in this area and so will endeavor that the Company's work meets those requirements.
- 2 Sum of the estimated size of addressable markets for the job advertising & talent sourcing tools market, the direct hire market, and the retained search market in terms of annual revenue, the estimated size of the addressable market for the internal recruitment automation market in terms of the amount of current expenses of employers for internal talent acquisition resources that could be reasonably automated and monetized, and the addressable markets for the temporary staffing market in terms of annual gross profit, in each case based on the Company's estimates and third party market data as described in the notes below.
- 3 Estimated size of the global online job advertising and talent sourcing tools market calculated by adding together the revenue of HR Technology in the relevant year, the Company's estimates for revenue of competing job advertising boards in the Company's target operating markets in the relevant year based on third party reports and internal research, and the Company's estimates for annual revenue of the talent solutions business of LinkedIn in the Company's target operating markets in the relevant year based on publicly available information, sell side analyst models, and internal research.
- 4 Estimated size of the global offline job advertising market derived based on the proportion of online to offline spending (excluding TV, cinema and radio advertising) in the overall advertising market in the relevant year based on third party reports and the estimated size of global online job advertising and talent sourcing tools market. The numbers in this chart are the sum of the global offline job advertising market and global online job advertising and talent sourcing tools market.
- 5 Source for 2023: SIA, Global Staffing Market Estimates and Forecast: November 2023 Update. Placement & Search market is derived by applying 15%, which was Placement & Search's share of 2023 Global Staffing Revenue to 640 billion US dollars, which was estimated 2023 Global Staffing Revenue, derived by applying the estimated 2023 -2% growth rate to the estimated 2022 market of 654 billion US dollars (estimate updated following the May 15th 2023 Earnings Release). Direct Hire Market is defined as a segment of Placement & Search Market, which in turn is a segment of Global Staffing Industry Market. Direct Hire Market segment was derived by applying SIA's Global Staffing Industry Market figure to country-by-country ratios of the relative proportion attributable to this segment within the total market based on proprietary third party market data. Retained Search Market is defined as the portion of Placement & Search Market not attributable to the Direct Hire Market and derived as the difference between these two segments.
- 6 Source for 2023: derived by applying a gross profit margin of 19.30%, which was calculated based on the weighted average of the top 3 publicly traded global staffing companies in terms of revenue in 2023, to 544 billion US dollars, which was the revenue of the temporary staffing market in 2023 from SIA, Global Staffing Market Estimates and Forecast: November 2023 Update by applying the estimated -2% growth rate to the updated estimated 2022 market of 555 billion US dollars.
- 7 Source for 2023: SIA, The Evolution of Recruiting: 2024 Update to Estimating the Addressable Market for Recruitment Automation (custom research commissioned by Indeed): January 2024 Update. SIA's estimates are based on the assumption that 41% of historical spending on internal talent acquisition resources could be reasonably captured by current technology and that technology would result in 37% cost savings from historical spending. In the report, SIA notes given the challenges in making global estimates with incomplete information, and in estimating potential automation and savings, SIA advises readers to think of the estimated market size as a midpoint in a range with a 20% spread. This market estimate includes the addition of the ATS market and the Background Checks market.
- 8 As described above, the estimates of the job advertising & talent sourcing tools market, the direct hire market, the retained search market, the internal recruitment automation market and the temporary staffing market are based on internal estimates and independent market research in addition to third party market data. Accordingly, the estimates described above may differ materially from the actual size of such markets.

Definitions of HR Matching Markets

Job Advertising and
Talent Sourcing^{3,4}

a collection of online and offline tools and services that help employers advertise jobs, source candidates, and build and promote their online employer brand

Direct Hire⁵

where agencies are paid fees for placing permanent workers at employers (alt: *Permanent Placement*)

Retained Search⁵

where agencies are paid an upfront fee to exclusively search for employees to fill specific roles at employers, commonly executive roles

Temporary Staffing⁶

where agencies are paid to find and employ, or facilitate employment of, workers for a temporary period for business clients

Internal Recruitment
Automation⁷

estimate of how much of spending on internal talent acquisition resources and tasks that can reasonably be automated and monetized by third parties

Footnote

Page 19

- 1 Internal data, cumulative number of verified job seeker accounts across HR Technology's sites through December 31, 2023. Job seeker accounts that have a unique, verified email address
- 2 Internal data, cumulative number of company ratings and company reviews submitted on Indeed, worldwide, as of March 31, 2024
- 3 Internal data, cumulative number of Indeed Assessments completed by job seekers as of March 31, 2024
- 4 Internal data, daily average number of jobs searchable on Indeed, worldwide, CY 2023

Page 20

- 1 Source: comScore, Total Visits, March 2024
- 2 Internal data, an average of each month's total of distinct cookie IDs visiting Indeed's site between October 2023 - March 2024
- 3 Internal data based on Google Analytics, an average of each month's total of distinct cookie IDs visiting Glassdoor's site between October 2023 - March 2024
- 4 Indeed data, 2023 average. See P19 of "Consolidated Financial Results for the Year Ended March 31, 2023 (IFRS, Unaudited)" for calculation methodology
- 5 Internal data, based on the last 12 months of activity as of March 2024

Page 34

- 1 The total of the number of applications on Rikunabi NEXT, TOWNWORK, and RECRUIT AGENT, the number of individual users who were referred to our business clients at SUUMO Counter, the number of online reservation on Hot Pepper Beauty, the number of hotel bookings on Jalan, the number of seats reserved on Hot Pepper Gourmet, and the number of payments through AirPAY during the period from April 1, 2023 to March 31, 2024. Rounded down to the whole number.
- 2 Cumulative number of registered accounts of paid and unpaid SaaS solutions provided by Matching & Solutions SBU in Japan as of March 31, 2024. Registered accounts refer to the number of stores and business locations that have registered for each relevant service including both active and non-active accounts. Rounded down to the third decimal place.
- 3 Total gross payment volume of offline payments through AirPAY terminals, including QR code payments through AirPAY QR, and online payments through AirPAY ONLINE (Since the revenue generated from the payment processing fee we collect is based on a very small percentage of total gross payment volume, changes in total gross payment volume are not necessarily proportional to changes in our total revenue). Rounded down to the second decimal place.
- 4 The Company estimated the number of business locations and stores that can be potential users of SaaS solutions provided by Matching & Solutions SBU as of March 31, 2024 in Japan by identifying the total number of business locations and stores of small and medium-sized enterprises in Japan (using the definition used by Small and Medium Enterprise Agency) based on the 2021 Economic Census for Business Activity conducted by the Ministry of Internal Affairs and Communications and the Ministry of Economy, Trade and Industry. Considering the solutions (including AirWORK ATS) provided by Matching & Solutions SBU in Japan as of March 31, 2024, the Company now believes it is possible to provide its SaaS solutions to all business locations and stores of small and medium-sized businesses regardless of the industry. Accordingly, the Company decided to count all such business locations and stores as potential users of its SaaS solutions. Matching & Solutions SBU continues to target potential users among small and medium-sized businesses as defined by Small and Medium Enterprise Agency based on the current major target for potential users of SaaS solutions.

Page 36 and 37

1 The years indicated are Recruit Holdings' fiscal years (FY), which begin on April 1 each year and end on March 31 of the following year. All targeted figures displayed here are approximate.

2 Carbon neutrality includes reducing greenhouse gas (GHG) emissions as well as offsetting the remaining emissions. GHG emissions throughout business activities are the sum of direct emissions from the use of fuels in owned or controlled sources (Scope 1) and indirect emissions from the use of purchased electricity, heat, or steam in owned or controlled sources (Scope 2). GHG emissions from the value chain are indirect emissions other than Scope 1 and 2 (Scope 3). The entire value chain represents the total of Scopes 1, 2 and 3.

3 The period from the time a user starts an active job search on the Indeed job platform to the time the users confirm receipt of a job offer.

4 The initiative as of today includes providing assistance through the Company's online job platform, and through partnerships with NPOs and other organizations with whom the Company collaborates. The Company may also aim to reduce other various barriers, including newly emerging issues in the labor market by FY2030.

5 All employee levels refer to the following three groups including all employees, managerial positions, and senior executives. Senior executive positions are defined as Senior Vice Presidents and Corporate Officers of Recruit Holdings and Matching & Solutions Strategic Business Unit (SBU), and CEOs of the Company's major subsidiaries and heads of key functions in the HR Technology and Staffing SBUs. Figures for managerial positions and employees are calculated from Recruit Holdings, SBU Headquarters, and primary operating companies of each SBU. Managerial positions mean all of those that have subordinate employees.

6 The Board of Directors members are defined as Directors of the Board and Audit & Supervisory Board members.

Forward-Looking Statements

This material contains forward-looking statements, which reflect the Company's assumptions, estimates and outlook for the future based on information available to the Company and the Company's plans and expectations as of the date of this material unless the context otherwise indicates. There can be no assurance that the relevant forward-looking statements will be achieved. Please note that significant differences between such forward-looking statements and actual results may arise due to various factors, many of which are outside the Company's control, including changes in economic conditions, changes in individual users' preferences and business clients' needs, competition, changes in the legal and regulatory environment including changes in laws and regulations or guidance, interpretation, enforcement or practice relating to laws and regulations, fluctuations in foreign exchange rates, climate change or other changes in the natural environment, the occurrence of large-scale natural disasters, and other factors. Accordingly, readers are cautioned against placing undue reliance on any such forward-looking statements. The Company has no obligation to update or revise any information contained in this material based on any subsequent developments except as required by applicable law or stock exchange rules and regulations.

Third-Party Information

This material includes information derived from or based on third-party sources, including information about the markets in which the Company operates. These statements are based on statistics and other information from third-party sources as cited herein, and the Company has not independently verified and cannot assure the accuracy or completeness of any information derived from or based on third-party sources.

Notes Of This Material

This material has been prepared for the sole purpose of providing general reference information. Neither this material nor any of its contents may be disclosed or used by any third party for any other purpose without the prior written consent of the Company. The Company makes no representation as to the accuracy or completeness of the information contained in this material and shall not be liable for any loss or damage arising from the use of this material.
